Conservative first-year
estimate

PROJECTED ROI

14.5×

First-year return on
investment

SAVINGS BREAKDOWN

Denial Recovery

Recovering 35% of currently denied claims through better coding controls, appeal workflows, and payer-specific protocols.

\$126,000

annual estimate

A/R Acceleration

Reducing from 55 days to the 45-day benchmark accelerates cash flow and reduces write-off risk on aging balances.

\$16,500

annual estimate

Efficiency Gains

\$75,000

Process standardization, automation, and elimination of rework reduces operational cost, typically 2 to 3% of annual revenue.

TOTAL PROJECTED ANNUAL RECOVERY

\$217,500

RECOMMENDED FOR YOUR PRACTICE SIZE

Revenue Cycle Assessment (One-Time)

Based on your revenue, denial rate of 12%, and days in A/R of 55 days, your practice has systemic revenue cycle issues that will recover faster with hands-on strategic engagement than a self-serve platform alone. This service level is calibrated for your practice size and recovery potential.

\$10,000 – \$20,000 one-time

- ✓ Full practice assessment and revenue cycle audit
- ✓ Denial pattern analysis and remediation plan
- ✓ Payer contract and underpayment review
- ✓ Team training and process redesign
- ✓ KPI tracking and accountability structure
- ✓ Projected recovery: \$217,500/year
